RARE COIN LIST NUMBER 3

December 1972

PARAMOUNT International Coin Corporation

PARAMOUNT BUILDING • ENGLEWOOD, OHIO 45322 • TELEPHONE: AREA CODE 513 836-2654

Dear Collector,

Possibly the greatest year in the history of numismatics is drawing to a close. The year has been filled with outstanding conventions, record setting auctions, and an enthusiasm for our hobby on the part of collectors, investors, and dealers that has been nothing short of phenomenal. Paramount has kept pace with this enthusiasm with expanded price lists, increased services for the collector, and a highly intensified buying campaign that has resulted in many outstanding new purchases. We offer many of these new purchases for the first time in this *Rare Coin List # 3*, and we are sure that before long, most of them will have found new homes.

From now on, all of your purchases from Paramount except auction payments, common U.S. gold, and discounted items, may be charged to your BankAmericard or Master Charge account. This will allow you to buy the items you want *now*, and pay for them on the convenient terms afforded by your own bank. All you have to do is send us all the information exactly as it appears in raised print on your card and your signature, and we'll do the rest.

It was only a short while ago that we announced that we had assembled one of the most comprehensive, highest quality stocks of U.S. Silver Dollars in existence. In that short time, our revolutionary Mint State grading system and ultra high standards have become the talk of the hobby. We are now helping a number of discriminating collectors assemble Morgan and Peace dollar sets of the highest quality obtainable and I would like to invite you to join them. U.S. Silver Dollars have a great future and Paramount now has *every date* in stock, and in most cases, in more than one Mint State grade!

Having conducted two of the major auctions of 1972, Paramount now looks forward to 1973 when we will conduct the N.A.S.C. auction sale in Los Angeles in February, and the Greater New York auction sale in May. We are accepting consignments for these sales *right now*, and so if you would like to reserve space for your duplicates or your entire collection, please call John S. Queen, Vice President at 513–836-2654.

Director of Sales

King George V Silver Jubilee

As Britain prepares a grand celebration to commemorate the 25th Wedding Anniversary of Queen Elizabeth and Prince Philip, it is only fitting for Paramount to take a nostalgic look back to another 25th Anniversary in the same family. . . the year was 1935 and Queen Elizabeth's grandfather, King George V, was celebrating his Coronation Silver Jubilee. In honor of this state occasion, a sterling silver crown was issued which Paramount is now offering to you in BU condition. Although the obverse bears the usual portrait of King George V, it is the reverse that lends an air of distinction to this coin. It portrays the common subject of St. George slaying the Dragon, but it is an uncommon, modernistic type of rendering, making this particular crown a type by itself. In addition, the coin was strictly a one-year issue and its mintage of only 710,000 makes it relatively scarce. We know that you will appreciate the opportunity to acquire this fine coin for your own collection.

A Comprehensive Listing of Morgan and Peace Dollars

—using the mint state grading system

A Mint State 65 1889-CC

With the exception of proofs, no special care was taken with United States silver dollars after they were minted. Invariably they were placed loose in 1000 dollar bags before being shipped or stored. As a result, virtually every silver dollar has some surface and/or rim abrasions and nicks. These abrasions and nicks are commonly referred to as 'bagmarks'. The number and severity of these 'bagmarks' is important to the silver dollar collector and can greatly affect the desirability and price of a given coin. You will notice in our explanation of Mint State 60, 65, and 70, that particular attention is given to the bagmarks, since they, more than any other factor, determine a given coin's mint state.

It is also a fact that some coins are more sharply struck than others. The sharpness of strike of a given coin shows up most noticeably in the hair over the ear and in the feathers on the eagle of both Morgan and Peace Dollars. All other factors being equal, a sharply struck coin will invariably command a premium over a weakly struck one of the same date. (This premium can be very substantial if the coin in question usually comes weakly struck as in the case of some New Orleans and San Francisco mint coins). Sharpness of strike is another important factor in Paramount's silver dollar grading system.

Here then is a capsule explanation of our mint state grading system as applied to United States Silver Dollars. If you have questions about this grading system or anything concerned with silver dollars, please write or call Mark A. Thornton at (513) 836-2654.

> A mint state coin is one that has never been in circulation and has absolutely no signs of wear. The following three mint state descriptions all apply to strictly uncirculated coins. The difference between mint states is determined by the bagmarks and the sharpness of strike.

Mint State 60—A Paramount mint state 60 (MS-60) coin is what most silver dollar dealers call 'choice BU'. It has an average number of surface and rim abrasions or 'bagmarks'. Depending on the particular date, an MS-60 coin may or may not be sharply struck. The coin is still an attractive, undamaged coin showing no signs of circulation.

Mint State 65—A Paramount MS-65 is of the quality that most dealers call 'BU gem'. It is a fully lustrous uncirculated coin with very few bagmarks. A noticeably superior coin to an MS-60, with considerably fewer and less severe bagmarks. In most cases, a more sharply struck coin than an MS-60 coin of the same date.

Mint State 70—A Paramount MS-70 coin is for the collector who wants only the very best available. It is a sharply struck coin (for the date) with full original mint lustre. As close to perfection as an uncirculated silver dollar can be, with virtually no bagmarks of any kind.

UNITED STATES

COMMEMORATIVE COINS

What do you think would happen if the United States government announced tomorrow that it would resume the minting of silver commemorative half dollars? How many orders do you think there would be for the first issue? A million? Three million? Perhaps ten million, as there were for the Eisenhower dollars.

Now suppose that, shortly after the mint began production of the new and eagerly awaited pieces, production had to be stopped for some reason, and only a small fraction of the anticipated number of coins were released onto the numismatic market, say 46,000. Surely the lucky purchasers of those 46,000 coins could soon realize a handsome profit because the demand would be far greater than the supply.

Such an event is, of course, unlikely to happen. But many collectors are beginning to realize that a similar situation does already exist! The item: U. S. Commemoratives. Like our theoretical half dollar, the average mintage of a U. S. commemorative is only 46,000 and so the supply of available coins can satisfy only a small percentage of the potential demand. Prudent collectors and investors will realize that as far as U. S. commemoratives are concerned, the time to act is now!

Paramount is recognized as the most quality-conscious commemorative dealer in the business. There is no doubt about the condition of any of the coins advertised below—each is select BU. Remember, you can order with complete confidence from Paramount.

Do You Know Who Were The Two Longest Reigning Monarchs In Modern History?

Austria
8 Florins—20 Francs

Great Britain
Jubilee Head Sovereign

If you answered Queen Victoria of Great Britain and Francis Joseph I of Austria you are absolutely right. These two monarchs ruled over two of the world's mightiest empires for over 60 years. In fact, each of their reigns spanned the terms of office of *seventeen* presidents of the United States.

Victoria and Francis Joseph had a great deal in common. Both were just eighteen years old when they succeeded their uncles to their respective thrones. And they also ruled more or less concurrently, each of them in power the entire second half of the 19th century! Queen Victoria's reign lasted almost 64 years, beginning in 1837 and ending with her death at Osborne in the Isle of Wight in 1901. Francis Joseph's rule was even longer, lasting from 1848 until his death in Vienna in 1916, a phenomenal total of 68 years.

Queen Victoria and Francis Joseph both suffered through personal tragedy (each losing a spouse through an untimely death) and yet they witnessed and were integral parts of some of the most important events in history. They were revered by their subjects and when they died, great eras, rather than mere reigns, had come to an end.

Because of their remarkably long tenures, both rulers enjoyed extensive portrayal on the coins of their kingdoms. In fact, Queen Victoria undoubtedly has appeared on a greater variety of coins than anyone else. We have chosen one coin bearing the portrait of each monarch, and combined them in a specially made, inscribed holder, to form Gold Coins of the Two Longest Rulers.

To represent Francis Joseph, we are very fortunate to be able to offer the Austria 8 Florin, 20 Francs. This coin was issued only in the years 1870-1892, and is certainly one of the most obscure and unusual denominations ever used by any country. This particular type of Austrian gold is becoming more and more difficult to locate in today's active foreign gold market. The obverse bears Francis Joseph's portrait, a simple but handsome representation. The reverse exhibits the famous and spectacularly beautiful Austrian Double Eagle Coat of Arms.

Of all the possibilities that exist to represent Queen Victoria in the set, we thought that the Jubilee Head Sovereign would be the most appropriate. This coin, first issued in 1887, is actually a commemorative, marking the 50th year of Her Majesty's reign. The design, the most elaborate of all portrayals of Victoria, was used for only five years. This coin, too, is rarely encountered in substantial quantity.

Each coin is approximately the size of a U. S. five dollar gold piece and will grade EF-AU or better. We think this is one of the most interesting gold sets that we have ever offered and the price is most reasonable as well.

TWO LONGEST RULERS (Gold Coins of Queen Victoria and Francis Joseph in custom holder, EF-AU or better) $62.50
